Sonu and Eva

Inspiring a lifetime of rare experiences

At Soneva, our creativity is driven by our guiding principle of 'Intelligent Luxury', which is about understanding what true luxury is for our guests; many of which spend most of their time in urban environments. It is about understanding the daily lives of our guests and offering them experiences that are both 'new' - in that they are rare, unusual and exceptional, but at the same time 'true' in that they are highly desired and cherished.

With our team, we continue to question and challenge what is rare, and hence a real luxury. We have curated the following rare and authentic experiences to help create precious, life-enriching stories and memories.

Hidden among dense foliage within the Baa Atoll UNESCO Biosphere Reserve, Soneva Fushi inspires the imagination with a collection of spacious beachfront villas. Everything about this magical place feels otherworldly, from the crystal clear turquoise water and dolphins at sunset, to the delicious cuisine available at the resort's multiple dining venues.

Nature is nurtured at the resort and each signature experience brings you one step closer to discovering its unadulterated beauty.

Sobah's Dinner & Cruise

Named after Chef Sobah, the 'Best Chef in the Maldives' award winner, Sobah's is a traditional Maldivian restaurant located on an uninhabited island only 15 minutes away by speedboat from Soneva Fushi. Chef Sobah has been with Soneva for many years, and after consistently winning local and international culinary awards, year after year, we gave him his own restaurant, which opens twice per week.

The cuisine is uniquely Maldivian using recipes that have been passed down from generation to generation, and the food is prepared using traditional cooking methods. The ingredients are sourced from what Sobah buys fresh from the fishermen each morning or what he scavenges from the island of Mendhoo itself. After dinner, learn about the starry night sky from our resident astronomer, while enjoying some of our finest digestives.

Duration: 2-3 hours

Freediving at Soneva Fushi

Freediving is the exhilarating practice of discovering the underwater world using only a single breath. You will learn our finning technique – how to propel through the ocean, increase your breath hold capacity, ability to both relax and focus, equalisation and of course safety, which is paramount.

Snorkel with Manta Rays

Join us as we search for the enigmatic, graceful, inquisitive and charismatic Manta Rays in the waters of the Baa Atoll. If the conditions are right, we will go to Hanifaru Bay, located only 20 minutes by speedboat from Soneva Fushi, which has one of the world's largest population of Manta Rays. When time and tide align, fortunate snorkelers get to observe and capture a rolling, whirling feast where it may be possible to see hundreds of these large yet harmless creatures congregate to gorge themselves in the plankton-rich waters. There are also several other locations close to Soneva Fushi where Manta sightings are common, so the exact itinerary of the trip may vary to maximize the chance of seeing these magnificent creatures. If Mantas cannot be seen on the trip, the Marine Biologists will lead an underwater discovery tour to showcase the stunning scenery of the marine life in the Baa Atoll.
*Manta sightings are frequent but not guaranteed.

Evening Fishing at Soneva Fushi

Arguably the oldest profession in the Maldives, fishing is one of the most relaxing activities for the busy traveller. Those who might rank themselves as talented fishermen with a sixth sense for good fishing spots would find it a worthy challenge to test the plentiful waters of the Indian Ocean for an impressive catch. Heading out in the boat just before the sun sets is a chance to enjoy the spectacular natural scenery, stunning sunsets and rich underwater life of the Maldives, while enjoying some canapes and cool beverages to make the experience even more unforgettable. Our captain will take you to secret spots known for big game yet away from the reef to avoid causing any damage.

The crew can provide assistance to fishing enthusiasts of all levels, and can also teach the basics of fishing with a simple line and a sharp hook. A maximum of two fish per person can be kept, while all others caught must be released back into the ocean. For those lucky enough to bring back a sizable catch, a meal featuring the fruits of your labor will be prepared by the chefs at the resort.
